REPORT NO.

INFO.

DO NOT CIRCULATE

Copies of three original plans of railroad bridges across the Oder-Spree Canal were obtained. The bridges are on the Frankfurt/Oder-Guben (O 52/A 79) railroad line. The bridge near Alte Schleuse, 9 meters wide with two tracks, was demolished in 1945. However, it is being reconstructed, with the completion date scheduled for November 1951. About 35 meters east of this bridge is a temporary bridge with one track. * A third bridge which was undamaged is located about 80 meters east of the lock. ** It is 9 meters wide and has two tracks, of which only one is being used. ***

* Consent. For plan of destroyed bridge, see Annex 1. For sketch of the temporary bridge and its relationship to the destroyed bridge, see Annex 2. A speed limit of 10 km/h has been fixed for this bridge.

Comment. For sketch of undamaged bridge, see Annex 3.

*** Comment. All three bridges lie between Fuerstenberg (Ø 53/V 71) and Neuzelle (Ø 53/V 70).

3 Annexes: 3 - sketches on ditto.
